Before completing your entry, refer to our helpful [Step-by-Step Entry Guide](#).

In your entry, make sure to:

- Focus on the unique work that your school does. What makes your school stand out in its environmental leadership and creativity?
- If your school has environmental certifications, feel free to include these; however, be sure to focus on explaining the details of the specific projects and programs that helped your school earn these certifications.
- Tell us how your school involved and educated the school community and local community in your environmental projects and programs.
- Include data and results wherever possible that show a) the positive environmental impact your school has made and b) school and community involvement.

Question 1: What does your school do to help the environment? Tell us about your school's creative and innovative environmental projects and programs. (maximum 300 words)

Question 2: Tell us about your school's most important and unique environmental project or program. (maximum 300 words)

Question 3: Tell us why your school needs new technology. How will your school use the technology to further its environmental and educational work? Include a specific environmental project or initiative in your response and provide a brief overview of the technology your school needs. (maximum 300 words)

Yes, I would like to receive news, updates and promotions from Staples Canada regarding Superpower your School or other promotions.
By checking this box, I certify that I am a school employee and have the permission of my school's principal to submit the entry.
I have read and agree to the [Rules and Regulations](#).

Please submit your completed entry form by email to: powereco@ecokids.ca.
